CRM Initial Course

Information Brochure

The Aviation Consulting Group (TACG) is a globally recognized, leading provider of aviation Crew Resource Management (CRM) training. TACG has been providing CRM training to aviation operators on a worldwide basis since 2000. Our CRM courses are cost-effective, flexible, and practical (we minimize theory and maximize real-word experiences, examples, and case studies). TACG offers CRM courses for airlines, charter, business aviation, and helicopter operators. TACG's CRM courses meet and exceed the requirements of Regulators worldwide (including FAA, Transport Canada, and EASA).

When it comes to CRM training...a soft skills subject...the most effective delivery method is face-to-face with a live facilitator. Our highly experienced facilitators present timely, research-based topics, guide discussions, and interject lots of anecdote (as well as some humor). A face-to-face class allows greater interaction between attendees through personal experiences, group exercises, activities, and case studies. Additionally, a live facilitator will be able to answer your questions in real-time!
