Flat-Fee SMS Implementation Package

If you prefer to have more in-depth assistance with the implementation of your SMS, TACG is here for you! With our flat-fee SMS Implementation Package, you can rest assured that your organization will have an in-depth understanding of SMS rather than a "fill in the box" approach. To attain this goal, we include upper-management from the very beginning of the implementation process. Our shared goal is to build a strong safety culture; something that needs to start at the very highest levels of your organization and filter all the way down to the line employees.

What do you get with our flat-fee SMS Implementation Package?

(Note: this package can be revised/modified based on company size and/or client needs)

Three (3) onsite visits within a 12-month period-

1st onsite visit agenda: Nine (9) full days of SMS training and consulting. Including:

- * High-level training on SMS and safety culture specifically for top management
- * Pre Gap Analysis
- * SMS implementation plan development
- * SMS Expanded Implementation 5-day course for the safety team

2nd onsite visit agenda: Three (3) full days of SMS consulting. Including:

- * SMS implementation assessment
- * Walk-around assessment of operations
- * Hands-on, face-to-face assistance with issues or questions

3rd onsite visit agenda: Five (5) full days of SMS consulting. Including:

- * Post Gap Analysis
- * SMS implementation plan final assessment and review
- * Hands-on, face-to-face assistance with issues or questions

Continuous access to your own personal safety advisor from start to finish. We're with you all the way!

- * Through email and/or Skype®
- * Response within hours, not days or weeks. We promise!

Comprehensive report upon conclusion of training/consulting engagement
