The Aviation Consulting Group, Inc. is a global leader in aviation safety training and consulting!

TACG provides safety solutions to aviation organizations on a global basis. We work with Airlines, Business Aviation/Charter Operators, Helicopter Operators, Airports, MROs, GSPs, FBOs, Flight Schools, and CAAs/Regulators. Our services include training, consulting, and safety program implementation.

Safety Culture

It is important to understand that making paradigmatic culture changes can be very difficult, if not impossible, to do internally. The use of an external, objective, unbiased consultant is critical in the measurement and guidance needed to make demonstrable changes in an organization's safety culture.

Services Offered

- Safety Culture presentations for conferences, symposia, safety stand-downs, etc.
- Safety Culture Webinars
- Safety Culture Assessments
- Safety/Just Culture Development
- Safety Management Systems (SMS) Training & Implementation
- Human Factors Training & Implementation
- High-Reliability Organization (HRO) Development
- Organizational Coaching
- Change Management

Safety Management Systems (SMS)

TACG provides holistic, or a la carte, solutions for your company's SMS needs and/or requirements. Our solutions have been developed in accordance with ICAO Standards and Recommended Practices (SARPs).

Courses and Services

SMS Courses

- SMS Overview
- SMS Basic Implementation
- SMS Expanded Implementation
- SMS For High-Level Management
- Performance-Based Auditing (for CAAs and Operators)

SMS Implementation Packages

- SMS Jumpstart Package
- SMS Flat-Fee Implementation Package

SMS/Safety Culture/HRO Consulting

- Safety Culture/High-Reliability Organization (HRO) Consulting

Virtual Safety Office

- Virtual Safety Office/Safety Analyst Mentor

Assessments

- SMS Gap Analysis
- Safety Culture Assessments

Line Operations Safety Audit (LOSA)

A LOSA is a formal process that requires expert and highly trained observers to observe operations in real-time and to collect safety-related data on environmental conditions, operational complexity, and human performance.

Courses and Program Implementation Packages

- LOSA for Flight Operations (Fixed Wing)
- LOSA for Flight Operations (Helicopter)
- LOSA for Cabin Operations
- LOSA for Ramp Operations
- LOSA for Maintenance Operations
- LOSA for Military Operations

Courses and Services

Human Factors

TACG is a worldwide leading provider of aviation HF training. We have been providing HF training to aviation operators on a worldwide basis since 2000. We offer HF courses for airline line maintenance facilities, MROs, FBOs, GSPs, manufacturers, and more. TACG's HF courses meet and exceed the requirements of Regulators worldwide (including FAA, Transport Canada, and EASA).

Human Factors Courses

- Human Factors Train-The-Trainer

Safety Audits

TACG offers a comprehensive selection of safety audits. From general safety audits to high-level State Safety Program (SSP) audits, we have the knowledge and experience to provide an accurate, detailed, and unbiased assessment of your operation.

Audits Offered

- General Safety Audits
- FAA International Aviation Safety Assessment (IASA)
- IATA Operational Safety Audit (IOSA) Pre-Audits
- IATA Safety Audit for Ground Operations (ISAGO) Pre-Audits
- SMS Gap Analysis
- State Safety Program (SSP) Audits
- ICAO Universal Safety Oversight Audit Program (USOAP) Pre-Audits

Technical Assistance For Aviation Regulators

TACG provides assistance to CAAs on a global basis. Our goal, as well as yours, is to make your CAA a model of excellence; the CAA that other CAAs want to emulate! We accomplish this with our consulting and training methods that focus on the implementation, and continuous improvement of, your SSP. All in accordance with ICAO SARPs.

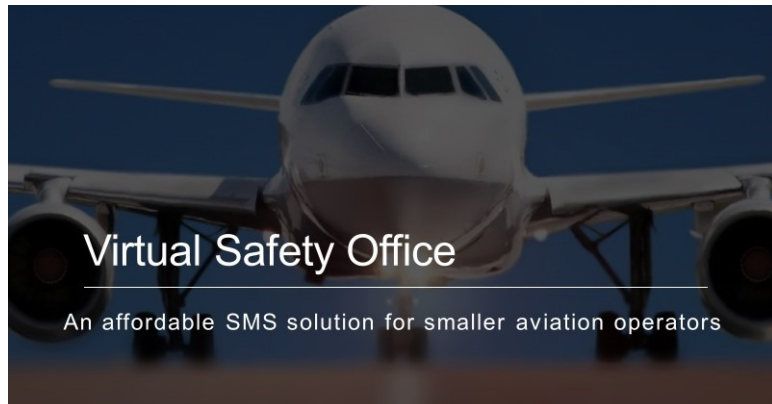

We Assist CAAs With...

- State Safety Program (SSP)
- FAA International Aviation Safety Assessment (IASA)
- Universal Safety Oversight Audit Program (USOAP)
- Performance-Based Oversight and Auditing
- SSP/SMS Software Solutions
